

1.0 Tender Sheet

The tender sheet for **2010 FFT Tree Planting – NIFR** lists an overflow opening namely:

Location	Opening Number	Plant Style	Estimated Plant ha	Plant density	Est. Total Trees Required	Total Trees Allocated
Robinson Lake	93F062-022	<i>Over-flow Fillplant</i>	9.2	1800	16,560	0

Please note that this opening has no trees currently allocated to it and thus should not receive a bid price/tree in the tender form. Any submitted bid price for this opening will NOT be considered valid and will not be taken into account during the bid assessment. Should the successful contractor completed the target openings to the required density and still have suitable trees near the end of the contract, a mutually acceptable price/tree will be negotiated for the overflow block.

2.0 Directions on Block maps.

It has been noted that some of the directions on the block maps are incorrect (specifically the Andrew Bay area); The Overview Map however is correct. To assist with this, block specific directions are re-posted below:

93E087-29 Directions

Proceed east at the junction where the Shelford FSR meets the Andrew Bay Rd (near the Andrew Bay Provincial Park Campground)
Follow Andrew Bay Rd for ~ 1.1km
Turn left onto East No-man's for ~ 1.6km
Turn right onto spur rd and follow for ~150m to opening

93E087-36 Directions

Proceed east at the junction where the Shelford FSR meets the Andrew Bay Rd (near the Andrew Bay Provincial Park Campground)
