# ITT NOTICE

## **Invitation To Tender (ITT) Manual Brushing - Mountain Pine Beetle Impacted Stands**

B.A. Blackwell and Associates Ltd. (B.A. Blackwell) are forestry consultants with offices in North Vancouver and Williams Lake, B.C. B.A. Blackwell is under contract with the Ministry of Forests and Range as a Recipient Agreement holder for the Forests for Tomorrow (FFT) program.

B.A. Blackwell invites tenders from qualified silviculture firms specializing in:

- the manual brushing of mountain pine beetle impacted stands for the purpose of preparing the site for planting,
- brushing in areas with limited access,
- danger tree assessments and hand falling,

for three 2010 Manual Brushing Contracts in the Quesnel TSA:

- 1 - Ques2010-MBW01: 104.4 ha. (4 units)
- 2 - Ques2010-MBW02: 109.0 ha. (5 units)
- 3 - Ques2010-MBW03: 84.4 ha. (8 units)

A mandatory Proponent's meeting will be held on Wednesday March 31, 2010 at 9:00 am. The meeting will review the overall projects including prescriptions, brushing standards, safety requirements and contracts. Additional tender package materials may be made available at the meeting. Interested companies shall meet at the office of Central Interior Mapping Co. Ltd. located at 535 north Fraser Drive, Quesnel, B.C., V2J 1Z2 (250- 992- 6871). Those expecting to attend are asked to RSVP Roland Jarrett by email prior to March 31, 2010. ([roland.jarrett@centralinterior.ca](mailto:roland.jarrett@centralinterior.ca))

**Only those companies that are B.C. Forest Safety Council certified SAFE Companies (as of the closing date) are eligible for this contract.**

To avoid duplication and to ensure that all bidders are provided with consistent answers, all ITT related enquiries must be made only in writing to the following e-mail address: ([roland.jarrett@centralinterior.ca](mailto:roland.jarrett@centralinterior.ca))

These contracts are subject to available FFT funding and the project approval of the Forest Service. These projects (or portions thereof) may be modified or cancelled. Proponents are advised that any costs incurred to prepare tenders are at their risk. The company with the lowest bid or any bid may not necessarily be awarded a contract. These contracts require

security deposits totalling 10% of the tendered values. See the specimen contract for further details. Companies will only be awarded one contract.

Signed copies of the tender forms will be received not later than 4:00 pm, Monday April 12, 2010 at the address listed below. Late proposals or electronically submitted proposals will not be accepted. Proposals must be submitted in accordance with the terms and conditions specified in the information package.

This solicitation is subject to the BC/Alberta Trade, Investment and Labour Mobility Agreement and Chapter 5 of the Agreement on Internal Trade.

## **PART A: ADMINISTRATION**

### **1. GENERAL INFORMATION**

#### **1.1 Purpose**

The purpose of this Invitation To Tender (ITT) is to invite bids from interested and qualified parties (“proponents”) to complete the works described herein.

#### **1.2 Objectives**

- a) Ensure optimum, cost effective manual brushing.
- b) Ensure safety and well-being of workers
- c) Ensure complete and accurate reports and records of project activities.
- d) Involve First Nations in delivery of program activities
- e) Protect and promote value and quality of forest resources.

#### **1.3 Identification**

This Invitation to Tender includes:

- The ITT notice (the “Notice”);
- Part A: Administration (“Part A”);
- Part B: Requirements (“Part B”);
- Part C: Attachments (“Part C”).

A list of attachments is provided in the ITT Package Contents Cover Sheet. It is the responsibility of proponents to ensure that they have all the components of the ITT package, including all attachments and subsequent addenda.

References to the ITT in the Notice, in any Part, or in any attachment are references to the ITT in its entirety.

Proponents are advised to read the ITT thoroughly and respond appropriately to the entire ITT. An incomplete tender submission may be rejected.

#### **1.4 Changes to the ITT**

Changes by BA Blackwell to the ITT will be made in the form of written addenda or re-issued documents which will be available at least seven calendar days prior to the ITT closing date. All addenda shall be considered to be integral to the ITT and having the same effect as if part of the original ITT.

BA Blackwell will make every effort to distribute addenda to all registered or known proponents. However, it is solely the proponent’s responsibility to be aware of and familiarized with any addenda or supplementary information issued.

Proponents are advised to return the ITT Receipt Confirmation Form to BA Blackwell, if one has been

included with this ITT, to ensure that they receive any changes to the ITT.

#### **1.6.1 Freedom of Information**

All tenders are subject to the disclosure provisions of the *Freedom of Information and Protection of Privacy Act*.

#### **1.7 Conflict of Interest**

Prospective proponents are not eligible to submit a tender if current or past corporate or other interests of the proponent, or of any of the proponent’s subcontractors to be engaged in this project, give rise, in the sole opinion of BA Blackwell, to a conflict of interest in connection with this project.

#### **1.8 Proponent Responsibility**

While BA Blackwell has made every effort to ensure an accurate representation of information in the ITT, proponents must conduct their own investigations into the material facts affecting the anticipated contract. Nothing in this ITT is intended to relieve a proponent from forming their own opinions and conclusions in respect of this ITT.

#### **1.9 Acceptance of Terms**

Tenders are submitted and accepted on the basis that proponents have read and agree to all the terms and conditions of this ITT. Tenders which include any condition or modification, or otherwise contradict any of the terms and conditions of this ITT will be as if not written and do not exist.

#### **1.10 Form of Agreement**

Included in this ITT is a pro forma, specimen contract that the successful proponent will be expected to enter into should a contract be awarded as a result of this ITT. An accepted tender will form part of this contract.

Proponent’s are cautioned to thoroughly review the specimen contract to ensure, before incurring the expense of proposal preparation, that they are capable of meeting all terms and conditions of the contract.

#### **1.11 Funding Limitation**

Notwithstanding any other provision of this ITT, the contract contemplated by this ITT and the financial obligations of BA Blackwell pursuant to that contract are subject to the availability of funds.

#### **1.12 Use of Invitation To Tender**

Any portion of this document, or any information supplied by BA Blackwell in relation to this ITT may not be used or disclosed, for any purpose other than for the submission of tenders. Without limiting the generality of the foregoing, by submission of a tender, the Proponent agrees to hold in confidence all information supplied by BA Blackwell in relation to this ITT.

### 1.13 No Lobbying

Proponents must not attempt to communicate directly or indirectly with any employee, contractor or representative of BA Blackwell, including the evaluation committee and any elected officials of BA Blackwell, or with members of the public or the media, about the project described in this ITT or otherwise in respect of the ITT, other than as expressly directed or permitted by BA Blackwell.

## 2. PREPARATION AND SUBMISSION

### 2.1 Proponent's Conference

A proponent's conference, if any, will be held at the time and in the location specified in the Notice. Tenders will not be accepted from proponents who do not attend a mandatory proponent's conference in its entirety.

At the conference, proponents may raise questions and seek clarification on any matters related to this ITT. While verbal questions will be permitted during the meeting, questions of a complex nature, or questions where a proponent requires anonymity, should be forwarded before the meeting in writing to the BA Blackwell Contact named in the Notice. Questions which cannot be answered by BA Blackwell at the meeting will be responded to in writing in an attachment to the meeting minutes.

Minutes of the meeting will be prepared and forwarded to each proponent in attendance at the conference, and, if the conference attendance is not mandatory, also to those proponents who have returned the ITT Receipt Confirmation Form, if one has been included with this ITT

### 2.2 Site Viewing

A guided site tour or meeting, if any, will be held at the time and location specified in the Notice. Tenders will not be accepted from proponents who do not attend a mandatory site viewing or meeting in its entirety.

### 2.3 Inquiries

Inquiries must be directed only to the BA Blackwell Contact specified in the Notice. The BA Blackwell Contact may require that an inquiry be submitted in writing.

Inquiries and responses may be sent to all proponents at BA Blackwell's option.

Inquiries will not be received after the date and time, if any, indicated as the inquiry deadline in the ITT Notice.

### 2.4 Tender Outline

All copies of the tender must conform to the tender outline provided in the attachment to this ITT. Failure to follow the prescribed outline may result in a reduction in evaluation points or may be cause for rejection. If alternative solutions are offered, submit

the information in the same format using subheadings to identify alternatives.

### 2.5 Tender Price

Proponents are solely responsible for their own expenses in preparing a tender, including expenses related to attending the proponent's conference, the site viewing, and to conducting negotiations with BA Blackwell, if any.

All prices provided in the proposal shall be in Canadian dollars and shall not be increased or decreased after the submission deadline, or during or after a presentation or interview, except as provided for in section 3.10.

BA Blackwell does pay the federal Goods and Services Tax (GST), but for purpose of bidding all tenders shall exclude GST.

BA Blackwell pays the provincial Social Services Tax (also known as the Provincial Sales Tax or PST) on certain goods and services. It is the proponent's responsibility to properly include the PST in the proposal price. Tendered prices are considered to be inclusive of all applicable taxes and duty.

Unless otherwise specified in Part B or C, bids on multi-year contracts are to be inclusive of inflation in future-year portions of the contract.

The tenders shall be submitted in a sealed envelope in the manner specified in Parts B and C of this ITT. Use the Price Offer form.

### 2.6 Cooperating Firms / Subcontractors

Where two or more independent firms are cooperating in the submission of a tender, the tender shall be submitted in the name of one firm that shall be considered by BA Blackwell to be the prime contractor. Firms other than the prime contractor shall be identified in the tender as subcontractors. The tender response must identify all subcontractors, their qualifications, and their respective roles in the project.

Negotiations during tender evaluation, award and execution of the contract, and all contract payments shall be between BA Blackwell and the prime contractor.

### 2.7 Submission

One signed (by a person with corporate signing authority) and sealed tender must be received at the location and before the time specified in the Notice.

Tenders must be submitted in an envelope clearly marked with the name and address of the proponent and the words, "Ques2010-MBW1 or "Ques2010-MBW2" or "Ques2010MBW3"" on the envelope.

Proponents are solely responsible for timely delivery of their tenders to the BA Blackwell location specified. Late bids will be returned unopened.

Unless otherwise provided for in Part B, bids will not be accepted by facsimile or electronic transmission.

## 2.8 Revisions

Revisions to the tender may be made prior to the Closing Date. Revisions:

- must be submitted in writing and identify the firm and the proposal being revised;
- must be in accordance with all ITT requirements;
- should be submitted in a sealed envelope to the BA Blackwell address shown in the ITT Notice;
- if not in a sealed envelope or if submitted by facsimile or electronic transmission, any price revision should be stated in the form of an increase or decrease to the bid price by a specified value or unit, in words and figures, without disclosing the original price; and
- must be signed and submitted to the BA Blackwell Contact specified in the Notice and sent by an authorized official of the firm, preferably by the same person signing the original submission.

The proponent is solely responsible for the timely delivery of revisions. BA Blackwell will not accept responsibility for the lack of availability of a facsimile machine at the closing location or for systems or other problems that may affect an electronic submission.

## 2.9 Withdrawal

Unless specified in Part B as irrevocable, a tender may be withdrawn by submitting a written request to withdraw to the BA Blackwell Contact identified in the Notice. Facsimile or electronic transmission of a request to withdraw is acceptable. A tender withdrawn after the Closing Date cannot be resubmitted.

## 3. EVALUATION AND AWARD

### 3.1 Contract Award

Depending on the tenders submitted in response to this ITT, a contract will normally be negotiated and executed with the leading proponent (the "frontrunner") selected in accordance with the evaluation format contained in this ITT. The lowest priced or any proposal will not necessarily be accepted.

BA Blackwell reserves the right to:

- award portions of the project to different proponents through separate contracts;
- accept tenders in whole or in part, with or without negotiation;
- refuse award of the contract to a proponent BA Blackwell judges to be fully or over committed on other projects;

- refuse award of the contract to a proponent where, in BA Blackwell's sole opinion, the overall bid does not represent fair value;
- refuse award of the contract to a proponent where, in BA Blackwell's sole opinion, the tendered price is considered too low to properly perform the contract; and
- in the case of a sole tender being received, either:
  - a) cancel the ITT, return the tender unopened to the proponent, and re-solicit tenders for better response with or without any change being made to the ITT; or
  - b) open the tender without reference to the proponent, and, if such tender does not merit contract award under the terms and conditions of this ITT, cancel the ITT and re-solicit tenders with or without any change being made to the ITT.

The proponent will ensure that each member of the workforce who will perform the services in Canada under the contract is either a Canadian citizen, a permanent resident of Canada, or holds a valid employment visa from the Government of Canada.

### 3.2 Opening of Tenders

Tender opening and evaluation is not open to the public.

### 3.3 Mandatory Requirements

Proponents are cautioned to carefully read the mandatory requirements specified in the ITT and respond appropriately. A "mandatory" is an item of information that must be submitted as part of a tender as proof of eligibility, or may apply to required attendance at a site viewing or proponent's conference. **Tenders not meeting all mandatory requirements of the ITT will be rejected without further consideration.**

### 3.6 Clarification

At BA Blackwell's sole discretion, one or more proponents may be asked to provide additional clarification respecting their tenders, or to address areas where BA Blackwell clarifies its needs.

### 3.8 Frontrunner Notification

The frontrunner shall be notified in writing of his/her status. Where possible, verbal notification shall also be given.

### 3.9 Suitability of the Frontrunner

The frontrunner may be interviewed and/or BA Blackwell may conduct such independent reference checks or verifications as are deemed necessary by it, to clarify, test, or verify information contained in the tender submission and to confirm the suitability of the

frontrunner. If the frontrunner is deemed unsuitable by BA Blackwell, or if the tender submission is found to contain errors, omissions or misrepresentations of a serious nature, the originally selected frontrunner may be rejected and another proponent selected as the frontrunner according to the evaluation format, or BA Blackwell may choose to terminate the ITT process and not enter into a contract with any of the proponents.

BA Blackwell may interview key persons to assess their scientific, technical or managerial abilities and to determine if they would be adequate for the proper performance of the proposed contract.

### 3.10 Negotiation with the Frontrunner

Negotiations may be held with the frontrunner including, but not limited to, matters such as:

- price, insofar as a change in price is directly associated with a change in the tender as a result of negotiations;
- changes in technical content;
- contract details;
- contract payment details; and
- expectations of the parties applicable to the service requirements.

If a written contract cannot be negotiated within seven days of notification to the frontrunner, BA Blackwell may terminate negotiations with that proponent and negotiate a contract agreement with another proponent selected as the frontrunner according to the evaluation procedure, or may choose to terminate the ITT process and not enter into a contract with any of the proponents.

BA Blackwell shall not be obligated in any manner to any proponent whatsoever until a written contract has been duly executed relating to an approved tender.

BA Blackwell reserves the right to modify the ITT at any time during the negotiation phase without notification to other proponents.

This contract requires a security deposits totaling 5% of the tendered value. See the specimen contract for further details.

### 3.11 Contract Execution

Following completion of negotiations, if any, or following the notification to a frontrunner of acceptance of his/her tender, BA Blackwell shall complete as appropriate the specimen contract attached to this ITT and forward the contract to the frontrunner for execution. BA Blackwell reserves the right to modify the contract as necessary to be commensurate with the tender submission or to recognize any new matter which may have arisen since the commencement of the ITT process.

The frontrunner must complete and return the contract within the time period specified in the letter forwarding

the contract for signature. Failure to do so may result in cancellation of the award.

## 4. SUMMARY OF CAUSES FOR REJECTION OF A TENDER - PART A

A tender **will** be rejected for the following reasons:

1. failure to attend a mandatory proponent's conference or site viewing in its entirety;
2. failure to include a specified "mandatory";
3. the tender submission contains errors, omissions or misrepresentations which, in the sole opinion of BA Blackwell, are of a serious nature;
4. the proponent is deemed unsuitable by BA Blackwell;
5. in the sole opinion of BA Blackwell, a proponent conflict of interest exists in connection with the project;
6. a tender is submitted after the Closing Date;
7. unless otherwise provided for in Part B, a proposal is submitted via facsimile or electronic transmission; or
8. other reasons specified in Part B of the ITT.

A tender **may** be rejected for the following reasons:

1. failure to negotiate a contract with the frontrunner within seven days of notification;
2. failure to return a duly executed contract within the time specified in BA Blackwell forwarding letter;
3. failure to follow the required tender submission procedures;
4. the tender is incomplete;
5. the tender includes a condition contrary to the terms and conditions of the ITT;
6. technical/performance requirements specified in the ITT are not met;
7. the tender specifies a pricing or a basis of payment which differs from that specified in the ITT; or
8. other reasons specified in Part B of the ITT.

## **PART B: REQUIREMENTS**

### **1. INTRODUCTION/ BACKGROUND**

The Ministry of Forests and Range has issued Recipient Agreements to various companies throughout the province to carry out restoration work of stands damaged by the mountain pine beetle (MPB) and wildfires. This Invitation to Tender (ITT) deals with the brushing of sites prior to planting that have been severely impacted by the mountain pine beetle. The Recipient for this Timber Supply Area is B.A. Blackwell and Associates Ltd. The company is located in North Vancouver and Williams Lake, British Columbia. B.A. Blackwell will have staff and subcontractors implementing and managing this contract on its behalf.

### **2. PROJECT DESCRIPTION**

The units identified in the ITT are typically 20-80 year old stands of lodgepole pine. These stands were either naturally or artificially regenerated. The MPB has impacted the stands to various degrees. Some stands may have 60% of the pine affected while in others the pine infection rate is as high as 80%. These stands were surveyed between 2006 and 2009 and treatment prescriptions have been developed. These prescriptions call for the planting of primarily non- pine species. This project prepares the site for underplanting in the spring of 2010.

The target species is alder. Other broadleaf species such a willow, birch and maple are to be protected. Natural regeneration in the understory can be difficult to see but must be protected as well during operations.

The monitoring and supervision of crews in these stands is difficult and it is expected that the proponent will work closely with the BA Blackwell supervisor in the allocation and marking of treatment areas.

Access throughout these units is variable. Access roads may or may not be drivable.

The units may or may not have been previously assessed for danger trees. DTA block reports will be made available to the contractor if available. However, the contractor must still ensure that the units, including marshalling points and roads are fully reviewed (by certified assessors) and treated (by certified fallers) for danger trees prior to the commencement of brushing activities. The crews must be made fully aware of the unit hazards and prepare crews appropriately for identifying or avoiding these hazards. Certified DTA inspectors must be available to update DTA hazards and amend reports and provide signed block assessment certificates.

#### **Project Hazards:**

This section is intended to convey information about hazards in and around the contract area that have been encountered by Blackwell and its contractors in similar projects. In accordance with Section 119 of the WCB Act, Blackwell is obligated to identify and make known any safety hazards the Contractor might encounter. These hazards may also require the Contractor to develop or update its written safe work practices for its workers.

#### **The following are known hazards:**

*Timber falling, timber harvesting, road construction, road deactivation, non- maintained roads, unmarked roads, non- radio controlled roads, active hauling, industrial vehicular traffic, recreational*

*traffic, danger trees along road and within work areas, falling tree tops and branches, wildlife, brush conditions that could lead to eye injury, hunters, adverse weather conditions.*

The Contractor must conduct, record and maintain work place hazard assessments at all work sites and update its Safety Program and procedures accordingly as required by WCB.

**Personal Protective Equipment (PPE) are mandatory for this contract. No exceptions.**

### **3. TIMING, MAJOR MILESTONES, AND REPORTING REQUIREMENTS**

Spring planting is expected to commence on these units about May 15<sup>th</sup>, 2010. The goal is to be commencing brushing treatments as soon as the snow has melted. **Brushing must be completed by May 21<sup>th</sup>, 2010.**

Sufficient brushers must be assigned to this project to meet the deadline indicated above. Declaration of project completion must be provided to BA Blackwell within two days of the work being completed for each pay unit agreed upon at the prework.

### **4. REQUIRED OUTPUTS/DELIVERABLES**

Brushing the entire treatment unit to the specifications provided by Blackwell using power tools.

### **5. PROPONENT QUALIFICATIONS**

See mandatory section 6 below

### **6. MANDATORIES**

The proponent,

1. must have successfully brushed > 200ha within one year, in one contract within the last three years.
2. must have carried out a brushing operation in the interior of British Columbia.
3. must not have failed a contract (list the contracts you held for the last 5 years and the contact name and phone number of each of them for verification purposes).
4. must have existed for more than 5 years.
5. must be certified as a SAFE Company.
6. must have demonstrated controls and capacity to be designated as the Prime Contractor.
7. must be in good standing with WCB.
8. must provide evidence, to the satisfaction of BA Blackwell, that they have a documented and a functioning Safety Program that it is in full compliance with WCB requirements

### **7. BA BLACKWELL RESPONSIBILITIES**

BA Blackwell will:

- Provide the ITT Price Offer Form on which the contractor will place their bid. This form will be placed in a sealed envelope.

- Upon entering into an agreement, BA Blackwell shall notify the Contractor of the names of BA Blackwell's representative assigned to the respective geographic areas of work.
- A pre-work conference will be conducted with the successful proponent prior to the commencement of work.
- Provide 6 copies of overview map, and 2 copies of treatment prescriptions with unit maps, in addition to digital map files in Microsoft Excel format.

## **8. AVAILABLE FUNDS**

Despite any other provision of this agreement, the obligation for payment of money by BA Blackwell to the Contractor, pursuant to this agreement, is subject to:

- a. The Legislative Assembly of the Province of British Columbia having provided sufficient funds to enable BA Blackwell, in any fiscal year or part thereof, to make payment pursuant to this agreement when it is due: and,
- b. Treasury Board not having controlled or limited expenditure of any funds referred to in subparagraph (a)

## **9. CONTRACT PRICING AND PAYMENT**

The price paid for work will be at the rate specified in Schedule A. The total payment will be determined by using the FFT Vegetation Management Quality Inspection standards or an approved variation of this standard. There will be a 20% holdback on all work completed and approved.

## **10. TRAVEL AND OTHER OUT-OF-POCKET CONTRACTOR EXPENSES**

There will be no payment for travel and other out of pocket contractor's expenses. All cost must be included in the bid price.

## **11. OTHER TERMS AND CONDITIONS**

Refer to contract Schedules A, B, C, D, E, and F

## **12. SUMMARY OF CAUSES FOR REJECTION OF A PROPOSAL - PART B**

- As specified above in Part A Section 4 Summary of Causes for rejection of a tender.
- Tenders not meeting all administrative and project mandatory requirements of the ITT as stated in Part C – attachments, will be rejected without further consideration.
- Not attending the mandatory Proponents conference and the mandatory site viewing in its entirety.
- Failure to meet the minimum requirements of the ITT.
- The tender contains errors, omissions, or misrepresentations that, in the sole opinion of BA Blackwell, are of a serious nature.
- A tender is submitted after the closing date and time.
